فخامة الرئيس محمود عباس "أبو مازن"

رئيس اللجنة التنفيذية لمنظمة التحرير الفلسطينية

رئيس السلطة الوطنية الفلسطينية

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

السلطة الوطنية الفلسطينية

منظمة التحرير الفلسطينية

بسم الله الرحمن الرحيم

تقديم من سيادة الرئيس محمود عباس "أبو مازن"  
رئيس السلطة الوطنية الفلسطينية

يعتبر التعداد العام للسكان والمساكن والمنشآت ركناً أساسياً من أركان النظام الإحصائي الرسمي في أي دولة، حيث يأتي تنفيذه خلال عام 2007 استحقاقاً قانونياً وتنموياً ووطنياً وسيادياً، ويمثل تنفيذه لبنة أساسية في عملية بناء الدولة وإرساء أسس التخطيط السليم بمعايير علمية نظراً لما يوفره من إحصاءات دقيقة وتفصيلية لكافة نواحي الحياة، ويساهم في بناء الدولة الفلسطينية وإنجاز الاستقلال السياسي والاقتصادي والاجتماعي، وتحقيق التنمية.

لقد جاء تنفيذ هذا المشروع الوطني الكبير في ظل ظروف غاية في التعقيد على مختلف الأصعدة، مما جعل تنفيذ التعداد مهمة صعبة تعترضها الكثير من التحديات والأخطار، إلا أن عزيمة الشعب الفلسطيني وإصرار الفريق الوطني، واحتضان القيادة السياسية جعلت من التغلب على هذا التحدي أمراً ممكناً أدى إلى تنفيذ التعداد العام الثاني في الأراضي الفلسطينية بجودة عالية وفق المعايير الدولية، بأيد وبخبرات فلسطينية وقرار فلسطيني مستقل، واستجابة للحاجات الوطنية في شتى المجالات.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

السلطة الوطنية الفلسطينية

منظمة التحرير الفلسطينية

لقد أسهم التعداد في إعادة الموضوع التنموي على الأجندة الوطنية والدولية في فلسطين، بعد أن تراجع دورها لصالح الأجندة الإغاثية، فالتنمية أهم الدعامات الضرورية لتأسيس مجتمع ديمقراطي، وبناء إنسان حر ملتزم بالمبادئ الوطنية والإنسانية. والإحصاءات الدقيقة والعلمية هي العمود الفقري لوضع خطط تنموية مبنية على أسس سليمة تشكل رافعة لقضايا التنمية وتحقيق الأهداف المعلنة عليها.

لقد أبدى المجتمع الدولي اهتماماً بالغاً بهذا المشروع التنموي وعبر عن اهتمامه من خلال الدعم المادي والفني الذي قدمته بعض الدول الصديقة والمنظمات الدولية. فقد كان لصندوق الأمم المتحدة للسكان مساهمة مادية وفنية جادة، وكذلك صندوق أوبك للتنمية الدولية، وحكومات النرويج وهولندا وسويسرا وأستراليا، والمملكة العربية السعودية ومنظمة الأمم المتحدة للطفولة "اليونيسيف"

إننا إذ نهدي هذا الإنجاز التاريخي الى كل فلسطيني، فإننا نعبر عن تقديرنا وشكرنا لأسرة الجهاز المركزي للإحصاء الفلسطيني والفريق الوطني للتعداد على إصرارهم وعطائهم وتفانيهم في تحقيق هذا الإنجاز.

رام الله: 2008/5/22

محمود عباس

رئيس اللجنة التنفيذية لمنظمة التحرير الفلسطينية

رئيس السلطة الوطنية الفلسطينية

## **Acknowledgments**

**The Population, Housing and Establishment Census (PHC-2007) is the second census conducted by the Palestinian Central Bureau of Statistics (PCBS) since the Palestinian National Authority (PNA) was established in 1994. The PHC-2007 was conducted in a very critical and complicated political, administrative, financial and organizational environment. It could not have been accomplished without the generous support of a number of friendly countries, international and national institutions and personalities.**

**The implementation of the PHC-2007 was co-financed by the PNA, United Nations Population Fund (UNFPA), the core funding group (CFG) of PCBS (Norway, Netherlands, and Switzerland), OPEC Fund for International Development (OFID), Australia, and the United Nations Children's Fund (UNICEF).**

**PCBS would not have been able to implement the PHC-2007 as a national project in such complicated circumstances without the important contribution made by the PHC-2007 National Higher Committee, the committees in the governorates, publicity campaign committees, and many other official and popular supporting committees and bodies.**

**We would also like to highlight the outstanding efforts made by the Census National Director, Executive Director, and all census national team members to plan, manage, implement, supervise, monitor, and coordinate census activities: senior assistants of the national and executive director, census directors in the governorates and their assistants, coordinators of the publicity campaign and their assistants, field supervisors, field observers, enumerators, administrators and other team members.**

**PCBS extends its deep thanks to all of these personalities and institutions for the tremendous efforts they exerted to bring the second Palestinian census to light.**

## **Preface**

The PHC-2007 is an important pillar of the national development process. It is a primary prerequisite for the socioeconomic planning. Furthermore, it helps reinforcing the Palestinian sovereignty on the ground. Countries around the world usually conduct censuses every decade according to the degree of population stability, the amount of potential changes in the demographic characteristics and the availability of the financial resources.

Realizing the importance of bridging the gap between society's statistical needs the current situation in the Palestinian Territory conducted the first national population, housing and establishment Census in 1997. PHC-2007 has been conducted for legal, development and statistical considerations. Success is vehemently attributed to the colossal efforts exerted by the national census team and the continuous support of the Palestinian leadership.

The main objective of the PHC-2007 is to update statistical data on the Palestinian population, housing units, economic establishments and agricultural holdings, and to provide small area statistics to the planners and decision makers. PHC-2007 will contribute to realizing a balanced and comprehensive development in all sectors.

PHC-2007 was designed and implemented in accordance with the United Nations principles and recommendations of Population and housing census taking into consideration the local Palestinian needs. Special attention was given to affording complete and adequate data on the size, structure, distribution and characteristics of the demographic, economic and social components of the Palestinian population; the characteristics of housing units; the number and characteristics of the economic establishments and making an inventory of the agricultural holdings. Consequently, obtained statistical data will foster and support the role and efficiency of planning both on the national and local governments levels.

In an effort of PCBS to provide the users with the census results as soon as possible, the national census team made every possible effort to fulfill that, where we were able to publish the preliminary results of the census after five weeks of the end of the census fieldwork events and this is considered a record time compared to other countries, and in a continuation of this approach.

PCBS and the national census team are pleased to present this report (Main Indicators by Locality Type) that summarizes the main results of the census in this field, more reports are being prepared to cover other topical aspects as well as other geographical areas. Hoping to be a reference for all planners, decision makers and policy makers in the public and private sectors and civil society institutions.

**January, 2009**

**Luay Shabaneh, PhD  
President of PCBS/  
Census National Director**

## **Remarks**

1. The population data published in this report are related to the final results for the population actually enumerated in the West Bank from 01-16/12/2007, in addition to the estimates of uncounted population according to the post enumeration study. While in Gaza Strip are related to the preliminary results for the population actually enumerated from 25/12/2007- 08/01/2008.
2. The building, houses and establishments data are related to the final results of the actually enumerated buildings, houses and establishments during the period 20/10 – 15/11/2007. However, the results do not include the buildings, houses and establishments, in the J1 area of Jerusalem Governorate.
3. The administrative classifications of the Ministry of Local Government were used. These classifications divided the Palestinian Territory into 16 Governorates. The Governorates are Jenin, Tubas, Tulkarm, Nablus, Qalqiliya, Salfit, Ramallah and Al-Bireh, Jericho & Al Aghwar, Jerusalem, Bethlehem, Hebron, North Gaza, Gaza, Deir Al-Balah, Khan Yunis, and Rafah.

## **Introduction**

### **1.1 Introduction**

The PHC-2007 is the second census conducted in the Palestinian Territory. It is the largest and the most inclusive statistical operation conducted to obtain statistical data necessary for socioeconomic planning and monitoring. Given the great importance of this census, the Council of Ministers issued specific decisions at its meeting convened in Ramallah on 16/12/2006 regarding carrying out the Population, Housing and Establishments Census-2007. These decisions set the geographical scope of the census and establishing the national committees assigned to supervise the implementation.

The census is one of the pillars of the official statistical system; accordingly, all sectors of society and its private and governmental institutions were requested to support the national team which has the responsibility for planning and conducting the census activities.

### **1.2 Objectives**

The main objective of the PHC-2007 is to provide figures for the Palestinian population and their geographical distribution in accordance with a number of relatively stable basic characteristics to inform socioeconomic development purposes. Preparations for conducting censuses take usually 3-5 years for piloting, testing tools, work plans, human and physical needs and timetable. The census is one of the most important statistical activities as it provides statistical data on the distribution of population, and their demographic, social and economic characteristics in a certain reference period of time for all the individuals within the borders of the state.

### **1.3 Justifications for Conducting the Census**

Nationally, there is a consensus on the necessity of conducting a regular census every decade. Also, a census was considered a legal requirement according to the General Statistics Law No. 4, 2000. In particular, the census was conducted for the following justifications:

1. Comparing statistics from both 2007 and 1997 censuses for various statistical indicators and tracking the fundamental changes in population, fertility, immigration, labor force and housing conditions.
2. Measuring the impact of the Expansion and Annexation Wall on population displacement, especially in the localities through which the wall passed or totally segregates.
3. Providing small areas statistics which is essential for planning process at the micro level.
4. Realizing the goals of the millennium. This would not been achieved without a variety of indicators on development and trends of change in the population, social and economic fields, and particularly, indicators in education, employment, demography, and the population age structure.
5. Updating population projections: The availability of statistical data on the population from two censuses is one of the most important requirements for success in preparing accurate population projections for the coming years, in addition to the updating of population and establishments registers.
6. Updating households, buildings, houses and establishments sampling frames, which are essential for implementing sample-based surveys.

7. Strengthening national statistical capacities and enforcing them as a form of national sovereignty over land and population.

#### **1.4 History of Censuses in Palestine**

1. The first population census in Palestine was executed in October 1922 during the British mandate era. The estimated population was 752 thousand.
2. A second population census was executed in November 1931. The population was estimated at 1.033 million.
3. A demographic survey was executed in 1944. The estimated number of the population of Palestine was estimated at 1.74 million.
4. Under the Hashemite Kingdom of Jordan administration of the West Bank, the Palestinian population in the West Bank was estimated at 667 thousand in the 1952 census and 805 thousand in the 1962 census.
5. Under the Israeli occupation, a comprehensive enumeration of the Palestinian population was done in September 1967. About 599 thousand inhabitants were enumerated in the West Bank and approximately 400 thousand in the Gaza Strip. It is worth mentioning that about 400 thousand Palestinians were displaced from the Palestinian Territory immediately after the Israeli occupation in 1967.
6. PCBS conducted the first Palestinian census in 1997. The estimated population in the West Bank (West Bank excluding J1, i.e., the part of Jerusalem which was annexed by Israel in 1967) and Gaza Strip was 2.6 million. The estimated population of J1 at the time was about 210 thousand. The Israeli Occupation prevented the national census team from surveying the J1 population.

#### **1.5 Stages of Census Implementation**

The Population Housing and Establishment Census-1997 was undertaken in three stages:

##### **1.5.1 The Preparatory Stage:**

This stage began at the beginning of 2005 and finished in July 2007. The preparatory stage was a preliminary stage during which formal decisions on the census were announced. Different organizational structures and committees were formed during this phase. In order to meet expected governmental needs, PCBS cooperated with ministries and governmental departments so as to prepare a list of different variables and indicators.

Moreover, maps were prepared for localities, and these localities were divided into enumeration areas. Also, questionnaire design, modules, and different plans were developed in this phase.

##### **1.5.2 The Field Work Stage:**

This stage began in August 2007 and was completed by the end of 2007. It included delineation of enumeration areas, marking and listing of buildings, housing units and establishments from 30/10/1997 - 23/11/1997, and the population count from 1-16/12/2008.

##### **1.5.3 Data Processing Stage:**

This stage began in November 2007 and completed in August 2008. While in Gaza Strip, only the preliminary results were completed.

## **1.6 Dissemination Stages**

### **1.6.1 Preliminary Findings**

Preliminary Findings of Population, Housing and Establishments Census - 2007 were disseminated on 09/02/2008 and they were in the form of numbers at the governorate and regions level (the West Bank and Gaza Strip) and the Palestinian Territory. These results were preliminary since they were compiled manually depending on the organization books of the observers in the census. The results were disseminated in record time during a month after finishing the fieldwork operations.

### **1.6.2 Final Findings**

After completing editing, coding and data entry of all questionnaires for each enumeration area in the West Bank, which took about 8 months, the final results were disseminated in the report concerning all of the characteristics of the individual and the household, in this report publish adetails data about locality type and some indicator about locality type level. The final detailed results are expected to be disseminated during 2009.

### **1.6.3 Analytical Reports**

The analytical reports regarding population and social themes will be disseminated through the dissemination project, which will be carried out by experts from universities and research centers.

## Concepts and Definitions

### 2.1 Geographical, Administrative and Statistical Divisions

According to current administrative divisions, the Palestinian Territory is divided into two geographic regions: West Bank and Gaza Strip.

1. **West Bank** is divided into 11 Governorates (Jenin, Tubas, Tulkarm, Nablus, Qalqiliya, Salfit, Ramallah & Al-Bireh, Jericho & AlAghwar, Jerusalem, Bethlehem, and Hebron) .
2. **Gaza Strip** is divided into 5 Governorates (North Gaza, Gaza, Deir Al-Balah, Khan Yunis, Rafah).

#### **Locality:**

A permanently inhabited place, which has an independent municipal administration or a permanently inhabited, separated place not included within the formal boundaries of another locality.

#### **Locality Code:**

It refers to the national code allocated for the locality. Every locality in the Palestinian Territory has been given a national code comprised of six digits.

#### **Locality Type:**

Localities have been divided into three types: **Urban, Rural, Camps**

**Urban:** Any locality whose population amounts to 10,000 persons or more. This applies to all governorates/districts centers regardless of their size. Besides, it refers to all localities whose populations vary from 4,000 to 9,999 persons provided they have, at least, four of the following elements: public electricity network, public water network, post office, health center with a full – time physician and a school offering a general secondary education certificate.

**Rural:** Any locality whose population is less than 4,000 persons or whose population varies from 4,000 to 9,999 persons but lacking four of the aforementioned elements.

**Camp:** It refers to any locality referred to as a refugee camp and administered by the United Nations Refugees and Work Agency in the Near East (U.N.R.W.A.).

### 2.2 Concepts and Definitions

#### **Building:**

A building is defined as any fixed construction that is temporarily or permanently erected on the surface of the earth or water. A building is surrounded by four walls or with at least one completed ceiling at the time of the visit, regardless of the construction material and the purpose of construction and utilization at the time of the Census. The building might be utilized for habitation, for work, for both, vacant, closed, deserted, under preparation or under construction at the time of the Census.

#### **House:**

A building or part of a building constructed for one household only, with one or more independent entrance leading to the public road without passing through another house.

**Collective Households:**

It refers to the place constructed for the residence of a group of individuals, who live therein and benefit from the services it provides. The collective household; it may be comprised of one building or more or one housing unit or more. Examples of collective households include hotels, hostels, elderly and orphans homes, psycho-therapy clinics and hospitals, collective households for university students, collective living quarters (camps) at the passages, and housing units of priests and nuns in the monasteries and churches (who do not have other households).

**Household:**

One person or a group of persons with or without a household relationship, who live in the same housing unit, share meals and make joint provision of food and other essentials of living. In PHC-2007, the household includes:

1. Household members found in the housing unit on the night of 01/12/2007.
2. Visitors living outside the Palestinian Territory but who spent the night of 01/12/2007 in the housing unit of the household (relatives and non-relatives).
3. Visitors from the Palestinian Territory who, as a whole household, remained for all of the enumeration period 1-16/12/2007.
4. Servants and other workers living usually within the household who spent the night of 01/12/2007 with the household.
5. New births born prior to the night of 01/12/2007 and still alive, irrespective of whether they were within the household or in the hospital.
6. Household members who spent the night of 01/12/2007 with the household and died after that night.
7. Household members who usually live in the housing unit but were not available in the night of 01/12/2007. This category includes:
  - Household members who spent the night of 01/12/2007 with another household inside the Palestinian Territory.
  - Household members working at night 01/12/2007 in factories, hospitals, airports, etc.
  - Individuals who spent the night of 01/12/2007 traveling in the public ways inside the Palestinian Territory.
  - Fishermen who spent the night fishing in the regional waters.
  - Members of internal security forces, and civil defense forces irrespective of where they spent the night of 01/12/2007.
  - Palestinian household members living usually within the household and who are holding an ID card, but who were abroad less than one year for temporary reasons (tourist, visit, pilgrim or any other reason).
  - Palestinian household members living usually within the household but who were absent during the night of 01/12/2007 due to urgent causes including hospital, detainee, etc.
  - Palestinian household members living usually within the households but who were absent during the night of 01/12/2007 due to their stay in a hotel in the Palestinian Territory.
  - Students studying abroad regardless of the length of their stay.
  - Students studying in Palestinian universities, institutes and other educational institutions irrespective of place of existence.
  - Household members detained in Israeli prisons.

### **The following were excluded from households:**

- Persons who died before the night of 01/12/2007.
- Persons who were born after the night of 01/12/2007.
- Persons who stayed during the counting in elderly homes, orphans homes, psychotherapy clinics and hospitals, and other collective households in the Palestinian Territory.

### **Average Household Size:**

It refers to the average number of household members calculated through dividing the total number of members for a certain category by the number of households for that particular category.

### **Connection to Water:**

1. **Public Water Network:** A network of pipes for the purpose of providing clean water to households. It normally belongs to a municipality, the council or to a private company or Mekorot Israeli company.
2. **Collection Water Wells:** Wells that are dug in the ground for the purpose of collecting rain water.
3. **Springs:** Water that is discharged from the ground at an intersection point between the topographic surface and the groundwater table; it could be permanent or seasonal, and it is considered as one of the natural resources for irrigation.
4. **Water Tanks:** Using water from vehicles that distribute and transfer water.
5. **Others:** If the source of water was not mentioned above.

### **Electricity:**

1. **Public Network:** Electrical wiring deployed in residential areas and covering all or most of the households in the locality, particularly through electricity companies or local authorities (municipal or village),
2. **Private Generator:** Device used for electric power generation and supply to housing and owned by the owner of the household or group of individuals.
3. **Not Available:** In the case of lack of means and therefore foregoing electricity.

### **Connection to Sanitation:**

This question illustrates the house connections to sanitation which are:

1. **Sewage Network:** System of collectors, pipelines, conduits and pumps to evacuate wastewater (rainwater, domestic and other wastewater) from any of the location places generation either to municipal sewage treatment plant or to a location place where wastewater is discharged.
2. **Porous Cesspit:** A well or a pit in which night soil and other refuse is stored, constructed with porous walls.
3. **Tight Cesspit:** A well or a pit in which night soil and other refuse is stored, constructed of tight walls.
4. **Not Found:** In case of no provision from the above methods.

### **Establishment**

An enterprise or part of an enterprise in which one group of goods and services is produced (with the possibility of having secondary activities).

### **Definitions of Jerusalem J1&J2**

For mere statistical purposes, the Jerusalem Governorate was divided into two parts:

(J1) Includes that part of Jerusalem which was annexed forcefully by Israel following its occupation of the West Bank in 1967. This part includes the following localities: (Beit Hanina, Shu'fat Refugee Camp, Shu'fat, Al' Isawiya, Jerusalem "Al-Quds"(Sheikh Jarrah, Wadi Al-Joz, Bab Al-Sahira, As Suwwana, At-Tur, Ash-Shayyah, Ras Al-Amud), Silwan, Ath-Thuri, Jabal Al-Mukabbir, As-Sawahira Al-Gharbiya, Beit Safafa, Sharafat, Sur Baher, and Um Tuba and Kufr A'qab).

(J2) Includes the Remaining parts of the governorate, namely: Rafat, Mikhmas, Qalandya Refugee Camp, the Bedouin Community-Jaba', Qalandya, Beit Duqqu, Jaba', Al-Judeira, Beit Anan, Al-Ram, Dahiat Al-Bareed, Al Al-Jib, Bir Nabala, Beit Ijza, Al-Qubeiba, Khirbet Um Al-Lahem, Biddu, An-Nabi Samu'eil, Hizma, Beit Hanina Al Tehta, Qatanna, Beit Surik, Beit Iksa, A'nata, The Bedouin Community – Al-Khan Al-Ahmar, Az Za'eem, Al-Sawahreh Al-Sharqiyeh, Ash-Sheikh Sa'd, The Bedouin Communities. Al-Eizariya and Abu Dis.
